Best Care for Better Babies

This program is funded in part through Early Childhood Iowa: Lakes Region

EARLY CHILDHOOD IOWA
LAKES REGION
SERVING CLAY, DICKINSON, O'BRIEN, & OSCEOLA

Who We Are

Best Care for Better Babies is a home visitation program designed to support pregnant women and parents with infants under one year of age. Through personalized, one-on-one home visits, the program helps parents build knowledge and confidence in understanding their child's health, growth, and development.

Services are voluntary, confidential, and at no cost to the family.

The Best Care for Better Babies program is delivered by a team of nurses who are trained in:

- Prenatal and postpartum care
- Developmental milestones
- Breastfeeding support
- Community resources
- Immunizations
- Car seat safety
- Parent education

What We Do

Home Visits
Individualized in-home visits provide one-on-one time with parents and children. These scheduled visits help increase parents' knowledge of their children's growth and development.

Screenings
Developmental screenings assess overall health, development, language, hearing, and vision with the goal of preventing difficulties later in life.

Resource Network
Best Care for Better Babies staff are knowledgeable about local resources and work closely with families to help identify and connect them with services that meet their individual needs.

Parents like you say...

"This is an amazing program that has helped me in many ways and has shown me a lot about my child. Thank you so much...My son is going to grow from this."

"I felt more confident as a parent. Very glad I participated."

"This was a great program. It helps me out very much as a new mom."

"Our nurse has been so amazing and helpful. We look forward to her visits. She gave us helpful information and tips."
